- (1) Non-GAAP sales from existing businesses (core growth) refers to sales from operations calculated according to GAAP but excluding (1) sales impact from acquired businesses, (2) the impact of currency translation and (3) sales impact from the Separation. References to sales attributable to acquisitions or acquired businesses refer to GAAP sales from acquired businesses recorded prior to the first anniversary of the acquisition less the amount of sales attributable to certain divested businesses or product lines not considered discontinued operations prior to the first anniversary of the divestiture. Sales impact from the Separation refer to sales to Danaher made under agreements entered into, or terminated, in connection with the Separation. The portion of sales attributable to the impact of currency translation is calculated as the difference between (a) the period-to-period change in sales (excluding sales from acquired businesses or Separation) and (b) the period-to-period change in sales (excluding sales from acquired businesses of Separation) after applying current period foreign exchange rates to the prior year period. See attached reconciliation of non-GAAP sales from existing businesses (core growth) to total GAAP sales growth.
- (2) Reconciliation of Non-GAAP adjusted operating profit including amortization of acquisition-related intangible assets by segment is presented separately herein.
