

Important U.S. Federal Income Tax Information for Shareholders Concerning the Distribution of Shares of Fortive Corporation Common Stock

Dear Shareholder,

On July 2, 2016, Danaher Corporation (“Danaher”) distributed to holders of Danaher common stock one share of Fortive Corporation (“Fortive”) common stock for every two shares of Danaher common stock held by such holders (except that any fractional shares of Fortive common stock that Danaher shareholders otherwise would have been entitled to receive in the distribution were aggregated and sold in the public market and the aggregate net cash proceeds of these sales were distributed to those shareholders who would otherwise have been entitled to receive such fractional shares) (the “Distribution”).

This letter describes how to allocate your tax basis between your Danaher common stock and the Fortive common stock you received in the Distribution for U.S. federal income tax purposes. A copy of Internal Revenue Service (“IRS”) Form 8937, Report of Organizational Actions Affecting Basis of Securities, is attached to this letter. The Form 8937 is required to be filed by issuers of stock that engage in organizational actions that affect the basis of that stock, in order to report certain information to shareholders and the IRS.

The following discussion is not tax advice and is directed only at U.S. holders who held their Danaher common stock as a capital asset (generally, property held for investment purposes). This discussion assumes that the U.S. federal income tax consequences of the Distribution are as described under the heading “*U.S. Federal Income Tax Considerations*” in the Registration Statement on Form 10 initially filed by Fortive with the Securities and Exchange Commission on December 3, 2015, as amended or supplemented through the date hereof.

THIS INFORMATION IS SOLELY FOR ILLUSTRATIVE PURPOSES AND IS NOT TAX ADVICE. YOU SHOULD CONSULT YOUR TAX ADVISOR AS TO THE TAX CONSEQUENCES OF THE DISTRIBUTION UNDER U.S. FEDERAL, STATE, LOCAL AND NON-U.S. TAX LAWS.

Tax Basis and Determination of Fair Market Values

The aggregate tax basis of your shares of Danaher common stock held prior to the Distribution must be allocated between (i) the Danaher common stock you continued to hold immediately following the Distribution and (ii) the Fortive common stock you received in the Distribution (including any fractional shares of Fortive common stock you were treated as having received), in proportion to their relative fair market values.

U.S. federal income tax laws do not specifically identify how to determine the fair market values of the Danaher common stock or the Fortive common stock. You should consult your tax advisor to determine the appropriate fair market values. One approach is to use the average of the high and low trading prices quoted on the New York Stock Exchange on July 5, 2016, the first trading day after the Distribution, as illustrated in the following example.

This example assumes you choose to use the average of the high and low trading prices on July 5, 2016, as the method of determining the fair market values of the Danaher common stock and the Fortive common stock. Using this method, after the Distribution, the fair market value of a share of Danaher common stock was \$78.94 and the fair market value of a share of Fortive common stock was \$49.11. Based on the one (1) to two (2) distribution ratio, this means that you would have received \$24.56 of Fortive common stock for each share of Danaher common stock you own. Based on these relative fair market values, your pre-Distribution basis in your Danaher common stock would be apportioned 76.2705% to your post-Distribution Danaher common stock and 23.7295% to your Fortive common stock (please see Exhibit 1 for an explanation of how these percentages were calculated). This calculation may be illustrated as follows:

- Assume you own a single block of 105 shares of Danaher common stock with a tax basis of \$30 per share (and a total tax basis of \$3150).
- You are entitled to receive 52.5 shares of Fortive common stock in the Distribution. Because no fractional shares are issued, you receive 52 shares of Fortive common stock and cash in lieu of 0.5 fractional shares.
- Your total tax basis in your pre-Distribution Danaher common stock is allocated \$2,402.52 to the Danaher common stock (76.2705% of \$3150), or \$22.88 per share (i.e., \$2,402.52 divided by 105 shares), and \$747.48 to the Fortive common stock (23.7295% of \$3150), or \$14.24 per share (i.e., \$747.48 divided by 52.5 shares).
- The portion of the tax basis allocated to your Fortive common stock that relates to the 0.5 fractional share of Fortive common stock for which you received cash is \$7.12 (0.5 fractional share multiplied by \$14.24 of tax basis per share of Fortive common stock). This would leave you with \$740.36 of tax basis in your remaining shares of Fortive common stock (i.e., \$747.48 minus \$7.12).

The above calculations are summarized in the following table:

Shares	Number of Shares	Tax Basis Allocation (per share)	Tax Basis Allocation (total)
Danaher	105	\$22.88	\$2,402.52
Fortive	52	\$14.24	\$740.36
Fortive (fractional Shares)	0.5	\$14.24	\$7.12
Total Tax Basis			\$3,150.00

Illustrative Calculation of Basis Allocation Percentages

Common Stock	Value/Percentage
Danaher Value (a)	\$78.94
Value of Fortive stock received for each Danaher share owned (b)	\$24.56
(a) + (b) = (c)	\$103.50
Danaher Allocation $\%(a)/(c)$	76.2705%
Fortive Allocation $\%(b)/(c)$	23.7295%

Part II Organizational Action (continued)

Danaher Corporation

Distribution of Fortive Corporation Common Stock Attachment to Form 8937

Part II

Line 14 – Describe the organizational action and, if applicable, the date of the action or the date against which shareholders’ ownership is measured for the action.

On July 2, 2016, Danaher Corporation (“Danaher”) distributed to holders of Danaher common stock, on a pro rata basis, one hundred percent of the outstanding shares of Fortive Corporation (“Fortive”) common stock (except that any fractional shares of Fortive common stock that Danaher shareholders otherwise would have been entitled to receive in the distribution were aggregated and sold in the public market and the aggregate net cash proceeds of these sales were distributed to those shareholders who would otherwise have been entitled to receive such fractional shares) (the “Distribution”). Each Danaher shareholder received one share of Fortive common stock for every two shares of Danaher common stock held on June 15, 2016, the record date for the Distribution.

The information contained herein does not constitute tax advice and is not intended or written to be used for the purpose of avoiding penalties under the Internal Revenue Code. In addition, this information does not purport to be complete or to describe the consequences that may apply to particular categories of Danaher shareholders.

Shareholders are urged to consult their own tax advisor regarding the particular consequences of the Distribution, including the applicability and effect of all U.S. federal, state and local, and foreign tax laws.

Line 15 – Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis.

The aggregate tax basis of your shares of Danaher common stock held prior to the Spin-off must be allocated between (i) the Danaher common stock you continued to hold immediately following the Spin-off and (ii) the Fortive common stock you received in the Spin-off (including any fractional shares of Fortive common stock you were treated as having received), in proportion to their relative fair market values.

Item 16 — Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of the securities and the valuation dates.

U.S. federal income tax laws do not specifically identify how to determine the fair market values of the Danaher common stock or the Fortive common stock. One method for determining the fair market values is to use the average of the high and low trading prices of the Danaher common stock and the Fortive common stock on July 5, 2016, the first trading day after the Distribution.

Using this method, the fair market value of a share of Danaher common stock on July 5, 2016 was \$78.94 and the fair market value of a share of Fortive common stock on July 5, 2016 was \$49.11. Based on these fair market values and the distribution ratio of one share of Fortive common stock per two shares of Danaher common stock held, shareholders' pre-Distribution tax basis should be apportioned 76.2705% to their Danaher common stock and 23.7295% to their Fortive common stock.

Item 17 — List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based.

The applicable Internal Revenue Code sections upon which the tax treatment is based are sections 355, 358 and 368.

Item 18 — Can any resulting loss be recognized?

Danaher intends for the Distribution to qualify as a "reorganization" under sections 355 and 368(a)(1)(D) of the Internal Revenue Code. Assuming that this characterization is respected, Danaher shareholders generally will not recognize any loss on the Distribution for U.S. federal income tax purposes (except to the extent that a loss may be recognized with respect to any cash received in lieu of fractional shares of Fortive common stock).

Item 19 — Provide any other information necessary to implement the adjustment, such as the reportable tax year.

The Distribution occurred on July 2, 2016. As a result, the basis adjustments in the shares of Danaher common stock and Fortive common stock should be reported in the taxable year that includes this date. In the case of shareholders who are calendar year taxpayers, the Distribution is reportable in the tax year ending December 31, 2016.
